

The background of the entire page is a close-up photograph of a green printed circuit board (PCB). It features intricate gold-colored traces and numerous circular solder pads, some of which have small components or solder on them. The lighting creates a slight gradient, with the top and bottom edges being darker green than the center.

FACE DETECTION SECURITY SYSTEM

IoT on Arduino and RPie

With Mr. Amit Baswani

(Employee)

Panda Projects

WeWork, Sector 15
Gurugram Haryana

Kunal Gehlot
Gehlotkunal4@outlook.com

Objective

To integrate buzzer and LCD display to RPiie via Arduino using Serial (I2C) communication and perform appropriate operation on positive and negative detections by reading HIGH/LOW input.
